TIC-TAC-TOE

The purpose of the tic-tac-toe drill is to work on winning multiple points in a row.

Play is initiated by a free ball to the side who won the previous point (the first ball of the drill goes to either side). Teams work to win three points in a row. When they do, they get to make a play on the tic-tac-toe board that is beside the court. The game is over when a team has won the game of tic-tac-toe.

In the result of a tie or "cat's game," have the resulting consequence be doubled for the loser of the next round.
